伊倍萊 *Ebetterlife*

In accordance with the philosophy of “Health Improving”,
Ebetterlife always devotes to help to improve
health and the quality of life.

The first rank manufacturing condition within China

With 66,000 m² floor space in total, the production base is equipped with 8,000m² top level GMP workshop which is the biggest GMP authorized site area of health products in China. Ebetterlife stands for the most advanced level. All product lines are originally imported from Europe and America, Japan, Switzerland, Korea and so on. Nine forms of drug and more than 300 health products' varieties such as soft capsule, hard capsule, pulvis, tablets, granules and tea bags all can be produced. Ebetterlife is the only domestic one who is embodied with product lines for nine forms of drug. It is also a demonstration production base for GMP health products within Guangdong province.

1000mg/capsule
(100capsules)
