

Paintball upgrades and parts Tippmann A5 MP5 sliding stock

Solid aluminum body and endcap

Six sliding positions

Black anodize

The versatile and instantly recognizable sliding stock for the H&K MP5 has now been adapted in form and functionality for the Tippmann A5! Constructed of solid aluminum, the MP5 Sliding Stock flows smoothly between six positions, creating a comfortable fit for a variety of tastes and environments.

spyder car stock

paintball equipment, paintball product, paintball stock

Made of Plastic

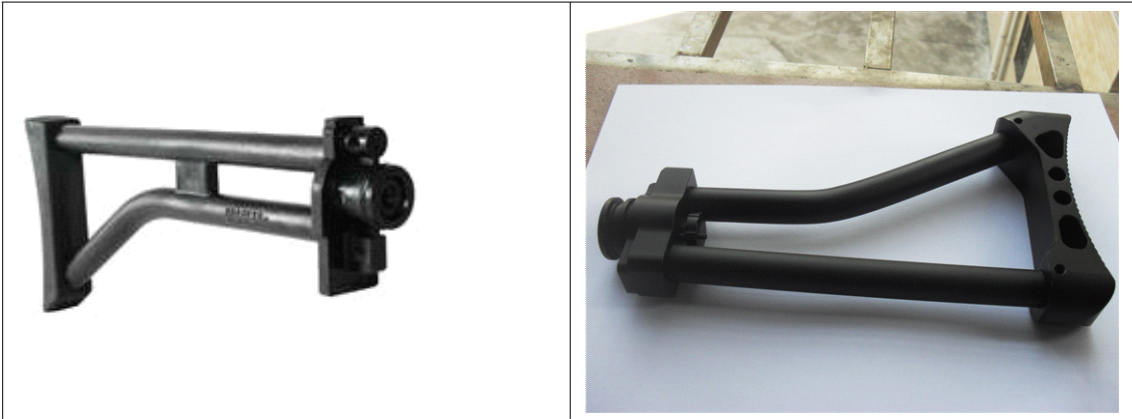

The T6 adjustable stock just like the ones used by military special operation forces. Tactical practical and economical. Features: *Virtually unbreakable. Manufactured from the same heavy duty composite plastic used in military stocks. The tube is made specifically for paintball markers. You will never have to worry about rusting or screws coming loose. *Improves your shooting accuracy quickly and easily adjusts to 6 different positions. This ensures that each individual gets a perfect fit even when wearing protective gear
