CANNONDALE JEKYLL MOUNTAIN: USD1990

Elevate:

- optimized for climbing and rolling terrain
- 90mm travel
- small volume air spring
- steep spring rate
- XC damping circuit
- sag cut by 40% (22% sag recommended)
- high BB, steep seat angle
- more efficient pedaling, better traction and handling for XC / climbing

Flow:

- 150 mm travel
- optimized for aggressive descending
- softer spring rate- DH damping circuit
- large volume air spring
- full sag (36% sag recommended)
- low BB / Slack, stable geometry
- plus, long travel
- coil like response
- optimized body position and handling for descents

CARBON:

Jekyll 0 Ultimate – 25.4lbs., SRAM XX/X0 10spd, Hollowgram SL BB30, Crank Bros Cobalt custom wheelset, Reverb, Tubeless Nobby Nic

Jekyll 1 – 26.7lbs : SunRingle black flag pros, FSA afterburner cranks, XT/XTR 3x10, REverb

Jekyll 2 – 27lbs: SRAM X9/X7 3x10, TALAS RL w/ custom threshold lockout for more supple movement, FSA afterburner cranks.

RAYMARINE

T400-Series Thermal Imaging Night Vision Cameras

USD6100/unit

Fits Raymarine Multi-Function Displays: E Series Widescreen & G Series

Power Requirements: 12V/24V DC

Maximum Range: Person-in-water: 1,500' (T300, 303, 400, 403); 2,700' (T350, 450); Typical Vessel: 4,200' (T300, 303, 400, 403); 7,216' (T350, 450)

Dimensions: 7"dia. x 11-1/8"H

Waterproof: Manufacturer's-rated IPX6

Warranty: Three years

Manufacturer Name	RAYMARINE
Manufacturer Part Number	E32127
Short Description	T400-Series Thermal Imaging Night Vision Cameras
SKU	12210324

FLIR

M-Series Premium Multi-Sensor Marine Night Vision System

USD3990/unit

Manufacturer Name	FLIR SYSTEMS, INC.
Manufacturer Part Number	432-0003-05-00
Short Description	M-Series Premium Multi-Sensor Marine Night Vision System
SKU	11768405

M-Series cameras provide four-times the thermal resolution (640 x 480) and more than twice the range performance compared to other systems.

M-Series cameras let you see more—and see farther—than ever before. Even in the dead of night.

Automatic window heaters keep both sets of optics free of ice to deliver crystal clear video

2X and 4X e-zoom functions give the thermal camera best-in-class range performance

Mount gimbal ball-up or ball-down for added flexibility

Simple Ethernet connections and IP addressability make the system simple to install and easy to control

Standard video signal displays on any monitor with an auxiliary video input

Watch thermal and lowlight video simultaneously on multiple displays or single multi-function display

FLIR SYSTEMS

Voyager II Long-Range Thermal Night Vision System

USD3800/unit

Voyager II bulkhead box

Joystick control unit

Cable assembly from camera to control box (available in 50, 100 and 150 feet lengths)

Cable assembly from control box to joystick (100 feet)

Features

Crisp thermal images—320 x 240 pixels

Advanced internal camera software

Two thermal imaging cameras

Continuous zoom

Integrated long-range daylight/low-light camera with continuous zoom

Advanced gyro-stabilization

Fast, precision Pan/Tilt system

Radar connection—“slew-to-cue”

Applications

Navigation

Collision avoidance

Man overboard recovery

Fire detection

Vessel in distress detection

Anti-terrorism

Vessel, crew and passenger protection

Long-range detection of inbound vessels, day and night

FLIR SYSTEMS

First Mate Pro Handheld Thermal Imager with E-Zoom and SD Card

Image Storage

USD1900/uni

The Pro version adds 2x E-Zoom and Still Image storage capability to the basic First Mate. Stores JPEG digital images to an SD card. Supports SD card to 4GB.

Battery Life: 5 hours continuous

Battery Type/Size: 4 AA NiMH batteries

Dimensions: 10.42" x 3.33" x 2.62"

Included Accessories: Includes video output cable, AC and DC power cables, USB connector, Hot Shoe charging and video output accessory, four rechargeable AA batteries, neck lanyard, manual and standard tripod mount

Waterproof: Rated IPX7 submersible

Warranty: Two years
