## Company Profile

Incepted in the year 1975, R.M. Engineering Works, is a leading company engaged in manufacturing and exporting a wide range of Food Processing Machinery. Our range of machines encompasses Kitchen Equipment, Catering Machinery, Bakery Equipment, Laundry Machinery, Dough Kneading Machine, Spiral Mixture Machine, Potato Peeler Machine, Batch Fryer, Muska Machine (Malish) and Papaiya Slicing & Cubing Machine. In addition to these, we are also offering Potato Wafer Cutting & Slicing Machine, Vegetable Cutting & Processing Machine, Dough Sheeter, Washing Machine, Hydro Machine and Steam Jacketed Kettle. Our entire range of Food Processing Machinery is known for reliable, fast & effective operations.

### Infrastructure

Our state-of-the-art infrastructure is segregated into various departments including Production, In-house designing, Quality controlling as well as Research and development. We have with us modern process machinery in our manufacturing unit to fabricate our range of Food Processing Machinery. We have established a well equipped manufacturing facility, which enables us to produce optimum functionality based machines. Our manufacturing unit is spread over an area of 20000 square feet and has massive capacity which enables us to also undertake bulk production in case of urgent orders. Moreover, it is also equipped with latest machines like:

- Lathe machines
- Cutting machines
- Shaping machines
- Welding accessories

Along with manufacturing unit, we also have an in-house design unit, which is equipped with Computer Aided Design (CAD) facility. This aids us in continually enhancing the design standards of the offered machinery range.

### Our Team

We strongly believe that a qualified and dedicated team forms one of the biggest strengths of a company. Ensuring that all the work is done in a proper order and carried out as per pre laid schedule, our dexterous team member's work in close coordination with each other. Our team members ensure that consistent design and finish accuracy is being maintained in manufacturing and supplying of Food Processing Machinery.

For meeting the in-hand process demands, we have with s service support of:

- Engineers
- Quality Inspectors
- Research Experts
- Technicians
- Packaging Experts
- Skilled Laborers

### Quality Assurance

Quality assurance is the fundamental point every client looks for thus, we ensure that our range of Food Processing Machinery is manufactured with great care. We always strive to implement the latest and advanced technology in our working and production methodology so as to deliver the best-in-class machines to our esteemed clients across the globe.

Our quality experts also conduct regular checking at every stage of manufacturing to ensure that our machines are flawless. In case, any default piece or machinery part is detected, it is immediately removed. Our entire range of machines is checked on the basis of following quality parameters at our inward inspection department:

- Working efficiency
- Dimensional accuracy
- Corrosion resistance
- Service life

## Research and Development

To meet with clients' expectations, we have set a separate unit for research and development that is manned by team of experienced research experts. This unit helps us to keep track of latest technological developments. Our research experts and technocrats also suggest new innovative ideas with a view to enhance the performance and overall service life of Food Processing Machinery.

Further, they work in close coordination with production engineers in order to receive information on existing production procedures and accordingly suggest appropriate measures to increase the production capacity. Moreover, we also conduct market surveys, which allow us to gauge the varying consumer's preferences.

## Clientele

Our technically advanced range of Food Processing Machinery has enabled us to earn a strong market position worldwide. Successfully catering to the specifications provided by the clients, we are able to meet the requirements of high performing and durable machinery.

## Our clients in India are mentioned below:

<b>Haldiram Foods International (Nagpur)</b> <b>Haldiram Mfg. Co. Pvt. Ltd. (Delhi)</b> <b>Haldiram Snacks Pvt. Ltd. (Noida)</b> <b>Haldiram Mfg Co. Pvt.Ltd. (Gurgaon)</b> <b>Kuber Namkeen (Delhi)</b> <b>Shivdeep Industries (Bikaner)</b> <b>Ghanta Foods Pvt Ltd. (Hyderabad)</b> <b>Adyar Anand Bhavan (Chennai)</b> <b>Bikaram Chandmal (Kolkata)</b> <b>Bikanervala Foods (Delhi)</b>	<b>Hotel Marine Plaza (Mumbai)</b> <b>Delhi Darbar Restaurant (Mumbai)</b> <b>Naval Dockyard (Mumbai)</b> <b>Ramada Palmgrove (Juhu Mumbai)</b> <b>Little Italy Restaurant (Mumbai)</b> <b>Rajdhani Restaurant (Mumbai)</b> <b>Deluxe Bakery (Aurangabad)</b> <b>Kwality Bakery (Mumbai)</b> <b>Monginis Foods Pvt. Ltd. (Mumbai)</b> <b>R.C.F. Fertilizers (Alibagh)</b> <b>Akash Namkeen (Indore)</b>
<b>Atop Food Product (Rajkot)</b> <b>Ajanta Food Product (Rajkot)</b> <b>Punjabi Chandu Halwai (Mumbai)</b> <b>Punjabi Ghasitaram Halwai (Mumbai)</b> <b>Mazgaon Dock Ltd (Mumbai)</b> <b>C.G. Foods India Pvt. Ltd. (Assam)</b> <b>Pran Foods (Bangladesh)</b> <b>Akil Foods Pvt. Ltd. (Kenya-South Africa)</b> <b>Oberoi Flight Service (Mumbai)</b> <b>Kohinoor Continental (Mumbai)</b> <b>Ambassador Sky Chef (Mumbai)</b>	<b>Moin's Restaurant (Thane)</b> <b>Raj Fast Food Restaurant (Sakinaka)</b> <b>Bajrang Namkeen Pvt.Ltd (Dhar)Indore</b> <b>Ganesh Bakery (Nandini) Kolhapur</b> <b>Ramdev Food Packaging (Jodhpur)</b> <b>Shree Mohan Karachi Sweet Mart (Pune)</b> <b>Gajanan Agro Food Pvt.ltd. (Lucknow)</b> <b>Pariwar Food Products (Varanasi)</b> <b>Santosh Foods (Mehboobnagar) Hyderabad</b> <b>Sugoki Namkeen &amp; Food Pvt.Ltd. (Jalgaon)</b> <b>Spice Agro-Tech Foods Pvt.Ltd. (Nasik)</b>
<b>Dr. Balabhai Nanavati Hospital</b> <b>Aum Agri Freeze Foods (Vadodra)</b> <b>Indian Railway Catering &amp; Tourism Corp. Ltd.</b> <b>Catering Aid (Mumbai)</b> <b>Whirlpool of India Ltd.
