CATERING & HOSPITALITY INDUSTRY

SCOUR KLEN – An abrasive powdered detergent designed for hard to remove deposits from pots, pans, porcelain and stainless steel. Streak free finish.

WINDOW BRITE – Cleanser for glass surfaces and mirrors. Leaves a streak free finish.

SAPPHIRE – Acidic toilet bowl and urinal cleanser with pleasant bouquet fragrance.

VISION – Window Cleaner

VISION is a non-ammoniated window cleaner which gives a streak-free, non-smearing finish to all mirror and glass surfaces.

HAND DISHWASHING DETERGENTS

GLEAMEX – Concentrated hand washing liquid detergent for dishes, pots and pans. Mild on hands, pleasant lemon fragrance.

HI KLEN – Liquid general purpose detergent for all hand washing applications. Safe to use on any surface. Suitable for dishes, floors and benches. *Suitable for use in export meat establishments.*

GLEAMEX GOLD – Premium Quality Dishwashing Detergent

GLEAMEX GOLD is a concentrated dishwashing detergent formulated to provide the best possible cleaning results for a wide variety of situations. GLEAMEX GOLD is designed to work in all types of water ranging from hard water with high iron content through to softened, treated or rain water.

MACHINE DISHWASHING DETERGENTS

DRY KLEN – Rinse aid for eliminating water spots from glassware, crockery and silverware in automatic dishwashing machines.

MACHINE KLEN – Liquid alkali chlorinated detergent for automatic dishwashing machines, used in conjunction with our electronic dosing equipment.

SCALE KLEN – Liquid acidic detergent for removing hard water scale in dishwashers, urns, tea and coffee pots.

SHINEE DISH WHITE – Chlorinated machine dishwashing powder for domestic and commercial use.

SPRAY KLEN – Chlorinated Dishwashing Machine Detergent

SPRAY KLEN is a powdered, non-foaming detergent containing chlorine which has been formulated for use in domestic and commercial automatic dishwashing machines. It is formulated for maximum effectiveness, particularly where difficult-to-remove contaminants such as traces of egg, custard, lipstick, tannin and heavy grease are involved.

HOUSEKEEPING CLEANERS

CERAMA KLEN – Powdered cleanser-destainer for hard surfaces such as ceramic tiles, grouting, toilet bowls, baths and hand basins.

LIFT OFF CREME CLEANSER – Non-abrasive liquid creme cleanser, pleasantly perfumed, for use on sinks, baths, basins and stainless steel surfaces.

GENERAL PURPOSE CLEANSERS

GEN KLEN – Liquid concentrated general purpose detergent. Suitable for use on vehicles, floors, walls, vinyl and carpet.

HEAVI KLEN – Powdered alkali cleanser for deep fat fryers and chicken rotisserie racks. Not suitable for use on aluminium.

KRYSTAL – Spray & Wipe Hard Surface Cleaner

KRYSTAL contains anionic and nonionic surfactants, solvent, inorganic water conditioning compounds and soil anti-redeposition agents. KRYSTAL is designed to remove grease, fat, protein, dirt, oil, etc. from a variety of surfaces.

FILTER CLEAN – A high powered general purpose detergent for hand wash equipment including Aluminium filters.

FRESH LIME – An economical general purpose cleaner for floors and other surfaces to remove dirt and soiling with fresh citrus lime fragrance.

NEPTUNE – Extra heavy duty oven and grill cleaner.

OVEN KLEN – Heavy duty cleanser for ovens, hot plates and fryers.

RAPID KLEN – Heavy duty liquid cleaner for the removal of fats and greases on walls, floors and equipment. Suitable for use on aluminium. *Suitable for use in export meat establishments.*

S21 MULTI PURPOSE CLEANER – General purpose non-caustic hard surface cleaner. Removes grease/grime and difficult stains. *Suitable for use in export meat establishments.*

OVEN MATE – Oven & Grill Cleaner

OVEN MATE is a powerful cleaner for ovens, grills, hot plates, barbecues and other kitchen surfaces which are heavily soiled with grease, fat or burnt-on food.

SANITISERS / CLEANSERS

LEMONEX – Concentrated liquid sanitiser/cleanser, for use in toilets, bathrooms and general areas. Leaves a pleasant lemon fragrance.

PINEX – Super concentrated pine fragranced liquid sanitiser/cleanser for use in toilets, bathrooms and general areas.

PINE CONE – Budget pine fragranced cleaner/sanitiser.

PINE KLEN – Concentrated, high viscosity pine oil based sanitiser. Ideal for janitorial and general maintenance cleaning of offices, stores, workshops and toilets.

SPICE AIR – Spice fragranced sanitiser for use in toilets, bathrooms and general areas. Can be applied by jet spray, as an effective room deodorizer.

FLOOR & FURNITURE TREATMENT PRODUCTS

DUBL KLEEN – Dual purpose cleanser for mopping and spray buffing polished floors.

LINK SEAL 30 – Metal link sealer/finish polish, self shine, high gloss with hard surface finish. Ideal for linoleum, vinyl, cork and timber.

STRIP IT – Heavy duty polish and wax floor stripper.

SUPPLIERS OF CONTRACT CLEANING/ CLEANERS EQUIPMENT.

CARPET & FABRIC CLEANING PRODUCTS

STEAM IT LIQUID – A highly concentrated, low foam liquid for use in hot water extraction carpet cleaning machinery.

STEAM IT POWDER – A concentrated, low foam powder for use in all hot water extraction carpet cleaning machinery.

SYMPHONY – Fragranced liquid concentrate for use in hot water extraction, carpet cleaning machinery.

FLUOROGUARD – Carpet and fabric protection product which is ideal for stain repellency.

B4 SPOTTING SPRAY – A spotting spray for removing food and beverage stains, which includes orange juice, from carpets.

SLURPEX – P.V.A. chamois block for removal of fresh spills and stains from carpets.

BEER LINE AND GLASS CLEANERS

BLUE KLEN – Colour indicator for beer waste trays.

GLASS KLEN – Non foaming liquid detergent for glass washing machines.

LINE KLEN – Liquid beer line and equipment cleanser.

T.S.P. SODIUM PHOSPHATE – Powdered detergent for cleaning beer lines and extracting equipment.

HAND SOAPS & SCRUBS

HAND KLEN S – Hand cream with lanolin and glycerine for maximum protection of skin. Ideal for use by mechanics in garages and workshops. Contains pumice for extra dirt removal.

HAND SAN – An alcohol-based hand sanitiser *Suitable for use in export meat establishments.*

ACCENT LIQUID SOAP – Fragranced liquid soap for use in bathrooms.

PROTECT – Viscous hand soap. *Suitable for use in export meat establishments.*

SAN KLEN – Liquid sanitising hand wash, designed for hand cleaning and sanitisation by workers in the food processing and catering industries. *Suitable for use in export meat establishments.*

SIROCCO – Waterless abrasive hand gel suitable for heavy industrial use.

WASH KLEN – Liquid hand wash for workers in the food and catering industry. *Suitable for use in export meat establishments.*

DEODORANTS

BOUQUET – Concentrated room freshener with a highly residual spice and floral fragrance.

BROOK – Concentrated room freshener with highly residual ocean, spice and floral fragrance.

FRESH AIR – Aerosol air freshener with potpourri fragrance.

FRESH BLOCKS – Fragrant jumbo deodorant blocks to neutralise unpleasant odours in toilets and urinals.

SAN CARE – Sanitiser/Space Deodorizer with residual fruity fragrance.

LAUNDRY INDUSTRY

LAUNDRY POWDERS

BLUE BRITE – Quality free flowing laundry powder containing optical brighteners for use in domestic and light institutional laundries.

BRITE FLO – Economy lemon laundry powder.

FOREST COLD WASH – Premium quality concentrated washing powder which incorporates activated oxygen bleaching agents and a strong residual fragrance for use in all machines. Safe to use on whites and colours. Use in cold or warm water.

FOREST BIOWASH – Premium quality enzymatic laundry powder with a strong residual fragrance for use on heavily soiled garments. For use in domestic and light industrial laundries. Use in cold or warm water.

KLEN CHLOR – Chlorine based bleaching powder for use where particularly heavy soilage has occurred. *Suitable for use in export meat establishments.*

KLEN 200 – Medium to heavy duty alkaline industrial laundry powder. *Suitable for use in export meat establishments.*

LAUNDA KLEN – Laundry detergent powder containing a blend of anionic, non anionic surfactants to lift dirt from clothes, with added water softeners and soil dispersants.

LAUNDRY LIQUIDS

BLOOM – Concentrated, premium liquid laundry detergent which contains optical brighteners for a cleaner wash in hot or cold water.

CASCADE – Neutral pH liquid laundry detergent suitable for use on woollens.

TREASURE – Concentrated enzymatic premium laundry liquid formulated to brighten and clean clothes and help reduce pilling in cotton garments. Suitable for domestic use and can be used in warm or cold water.

MISCELLANEOUS LAUNDRY PRODUCT

B4 PREWASH SPRAY – Concentrated pre-wash spotting spray for the removal of grease, grass and oil stains from garments.

BLEACH – 4% Sodium Hypochlorite Bleach for use in laundry for white and colour fast cottons and linens. Will remove stains, mildew and scorches.

HYDROGEN PEROXIDE – 50% – An oxygen bleach for removal of stains.

IRON AID – Liquid ironing aid with built in starch.

NAPPI AID – Cleaner/Sanitiser for nappies. Removes all biological stains and disinfects whilst soaking white and coloured garments.

OXYBRITE – Oxygen bleaching powder, for soaking white and coloured garments.

SOFT TOUCH – Concentrated liquid fabric conditioner softener and anti-static agent with pleasant fragrance.

SUPER BLEACH – Concentrated chlorine bleach for disinfection and stain removal.

ON PREMISE LAUNDRIES (O.P.L.)

ESCAPE – Liquid break wash for O.P.L. *Suitable for use in export meat establishments.*

CARDINAL – Liquid alkaline laundry detergent designed for O.P.L.

IDEAL – Liquid enzyme enhanced laundry detergent for removal of blood, grass and faecal stains, designed for manual machines and O.P.L. *Suitable for use in export meat establishments.*

PHOSSIC – Blended liquid acidic sour designed for O.P.L. *Suitable for use in export meat establishments.*

UNION – Combined softener and sour for improved economies.

ECLIPSE – Fabric softening agent for O.P.L. *Suitable for use in export meat establishments.*

ASF SOUR – Neutralises excessive alkali detergent, when added to final rinse. *Suitable for use in export meat establishments.*

CO-SOLVE – Solvent emulsion laundering aid for use on grease or food stained garments. Add to the break wash cycle.

FOOD PROCESSING INDUSTRIES

(ABATTOIR, DAIRY, SMALLGOODS)

GENERAL PURPOSE DETERGENTS CLEANSERS AND SANITISERS

ALL KLEN – A premium grade powdered, high foaming, general purpose detergent for all hand washing of equipment in food industries. Suited to hard water conditions. *Suitable for use in export meat establishments.*

ANTI-FOAM – Concentrated compound to eliminate foam in bottle washing and CIP systems in the food industry. *Suitable for use in export meat establishments.*

BOOT WASH – Detergent for cleaning and sanitising work boots via bath application, for use in food processing areas. *Suitable for use in export meat establishments.*

BUTTA SLIP – Powdered lubricating detergent for handling butter.

HORIZON – Concentrated high performance Q.A.C. based sanitiser/detergent for manual, foam cleaning and mechanical use in all food processing areas. *Suitable for use in export meat establishments.*

HI KLEN – Liquid general purpose detergent for all hand washing of equipment in the food processing industry. Safe on all surfaces. *Suitable for use in export meat establishments.*

JOURNEY – A 'one shot' high foaming, alkaline detergent/sanitiser with in built corrosion inhibitors, foam stabilisers and anti-redeposition agents. Suitable for the cleaning of equipment in food processing industry. *Suitable for use in export meat establishments.*

KLORO KLEN – High grade chlorinated powdered detergent high foaming for all hand and mechanical washing of equipment in food processing industries. *Suitable for use in export meat establishments.*

PHOSSIE DET – Concentrated acid foam cleaning compound with built in detergency removal from surfaces calcium and lime based deposits from hard water and food and dairy processes, soap scum, mineral stains, efflorescence and rust stains.

RAPID KLEN – Heavy duty liquid cleaner for the removal of fats and greases on walls, floors and equipment. *Suitable for use in export meat establishments.*

S21 MULTI PURPOSE CLEANER – General purpose, non-caustic hard surface cleaner. Removes grease and grime and difficult stains. Can be used

on aluminium. *Suitable for use in export meat establishments.*

VAT KLEN – Powdered chlorinated detergent ideal for cleaning road tankers, bulk mill vats, boning tables, in the food processing industries.

HEAVY DUTY ALKALINE CLEANSERS

ASTRO CHLOR – Chlorinated foam cleaner and sanitiser for use the food processing industries. *Suitable for use in export meat establishments.*

ATLAS – Scalding Additive And CIP Liquid Detergent – Aluminium Safe

ATLAS is a metasilicate-based liquid foaming, alkaline, biodegradable detergent. ATLAS does not contain caustic potash or caustic soda and is specifically formulated for clean-in-place equipment where soft metals (particularly aluminium) are exposed.

CARBO CLEAN – Liquid non-foaming detergent for poly carbonate bottle washing.

GALAXY – Detergent Sanitiser For Food Processing Industry

GALAXY is a specialised foaming detergent sanitiser for use in the food industry for cleaning, sanitising and emulsification of grease, oil and fats.

GALAXY is suitable for use in all areas of Meat and Fish export establishments as a detergent sanitiser.

HEAVI KLEN (Std or No Foam) – Powdered heavy duty alkaline detergent for the removal of stubborn deposits in the food processing industry. Do not use on galvanised tin, aluminium, plate or alloys. Also available in a 'No Foam' version – where excessive foam may cause problems, for example in high pressure C.I.P. systems.

NEBULA – Detergent Sanitiser For Food Processing Industry

NEBULA is a specialised foaming detergent sanitiser for use in the food industry for cleaning, sanitising and emulsification of grease, oil and fats. It is designed to produce only low odour levels of chlorine during cleaning.

PLATE KLEN – Heavy duty alkaline detergent for single stage cleaning heat exchange in dairy and food plants, especially where tenacious deposits of calcium based compounds are encountered.

SOLO PLUS – Heavy duty caustic cleaner for food processing equipment.

SUPA KLEN – Powdered heavy duty alkaline detergent designed for specific applications in dairy and fruit juice industries.

TANK KLEN – Liquid alkaline, low foam cleanser for cleansing bulk tanks, silos and milk tankers. Designed for CIP cleaning. Excellent for smoke house degreasing. *Suitable for use in export meat establishments.*

ACIDIC DETERGENT CLEANSERS / SANITISERS

ACID KLEN – Powdered acidic detergent for the removal of mineral deposits from stainless steel equipment within the food processing industries.

BAC KLEN – Liquid acidic sanitiser for use the food processing industry. Does not contain chlorine, Q.A.C. phenolics or iodine.

SCALE KLEN – Liquid acidic detergent for the removal of hard water scale from equipment. *Suitable for use in export meat establishments.*

SPIRO KLEN – Liquid acidic cleanser – low foam – for all C.I.P. applications. Ideal for U.F. plants. *Suitable for use in export meat establishments.*

HAND SOAPS FOR USE IN FOOD PROCESSING INDUSTRIES

HAND SAN – An alcohol-based hand sanitiser *Suitable for use in export meat establishments.*

PROTECT – Viscose hand soap. *Suitable for use in export meat establishments.*

SAN KLEN – Liquid sanitising hand wash, designed for hand cleaning and sanitation by workers in the food processing and catering industries. *Suitable for use in export meat establishments.*

WASH KLEN – Liquid hand wash for workers in the food and catering industry. *Suitable for use in export meat establishments.*

SANITISERS

NEW **CHLORINE DIOXIDE** – Designed as a broad spectrum sanitiser with multiple applications. Especially effective in vegetable, meat and poultry plants.

QUAT KLEN – Highly effective Q.A.C. liquid sanitiser, deodorizer, disinfectant for all types of surfaces. Applications by spraying/swabbing diluted solutions. *Suitable for use in export meat establishments.*

NEW **Q.T. 50** – Highly active quat sanitiser, deodorant and fungicide.

STERI KLEN – Powdered chlorinated detergent/sanitiser. Has a wide application for many cleaning and sanitising applications within the food processing industry.

FRESH UP – Peroxide based non rinse sanitiser for all food preparation surfaces. Extremely broad spectrum biocide *Suitable for use in export meat establishments.*

PROXITANE – Peracetic acid based liquid sanitiser. *Suitable for use in export meat establishments.*

FOOD PROCESSING ANCILLARY PRODUCTS

KOTE KLEN – Solvent dewatering fluid for rust prevention of hooks and rollers. *Suitable for use in export meat establishments.*

HOOK OIL (Cannis Oil) – Lubricant, rust preventative and dewatering oil for hooks, rollers and overhead nails.

DAIRY FARM INDUSTRY

ADD KLEN – Emollient additive for teat dips to help in controlling chaffing and cracking of cow teats.

BLITZ FOAM – Combination of iodophor, acid and surfactants allowing both cleaning and sanitation.

BOOM KLEN – Concentrated boom spray cleaner to assist in the decontamination of all agricultural spraying equipment. Dissolves residues, prevents corrosion and lubricates pumps.

CIP KLEN – Liquid heavy duty alkaline detergent for cleaning milking machine and milk tanks.

DAIRY SEIGE – Liquid acidic/iodophor cleanser with complex surfactant system formulated to be used at 35°C to clean and control bacteria in milking equipment.

DAIRY KLEN (Std or Low Foam) – Powdered alkaline detergents for the cleansing of milking machines and dairy equipment. Tolerates water hardness up to and including 800mg/l.

DUAL KLEN PLUS – Powdered hard water detergent combined with a chlorine sanitiser for efficient cleansing/sanitising in any water hardness.

GLYCERINE Additive for Teat Dips – Food Grade.

IO KLEN (Std or Low Foam) – Liquid iodophor sanitising compound for milking machines and bulk tanks.

PARAFFIN OIL – Food Grade.

PLATE KLEN – Heavy duty alkaline powdered detergent for the removal of fats and solids from milking machines and equipment.

PROPYLENE GLYCOL – Food Grade.

RINSA KLEN – Cold water rinse additive for milking machines and bulk tanks.

SCALE KLEN (powder or liquid) – Acidic detergent for the removal of milkstone and hard water staining.

TEAT KLEN – Liquid Chlorhexidine Digluconate based teat sanitiser for dip or spray used to control cracking, chapping and mastitis.

UDDA KLEN – Liquid iodophor teat dip for mastitis control.

VAT KLEN – Powdered chlorinated detergent for cleansing of milking machines, lines and tanks. Excellent in hard water.

INDUSTRIAL AUTOMOTIVE, MARINE AND MINING

ALU SEAL – Specialty clear coating to coat aluminium hulled boats after cleaning.

AUTOMATE – Concentrated detergent specifically formulated for the cleaning of trucks, buses, cars, and all commercial vehicles.

BAN RUST – Bore water and rust stain removal from masonry, buildings and fibreglass boats.

BRITE-AL – Acidic cleaner and brightener for aluminium. i.e. truck bodies, seatainers and caravans.

CARBONEX – Liquid decarbonising compound for removing carbon, resin, paint and varnish from alloys, iron and ferrous products. Use in non-agitated soak tank.

CHEMI-POT – Chemical toilet treatment for use in portable and chemical toilets.

CRUSTEX – Soil stabilisation and dust suppressor. For use with hydromulch or on its own.

DEGRO – Concentrated specialty degreaser with broad spectrum solvent system – rapid removal of grease. Can also be used with salt water.

FLOOR KLEN – Heavy duty pine oil based floor cleaning detergent designed to remove grease and oil stains from concrete floors.

GEAR KLEN – Heavy duty alkaline scale, rust, carbon and grease remover for use on cast iron and steel motor parts. Not for use on non-ferrous metals i.e. aluminium.

GEN KLEN – Liquid concentrated general purpose detergent for cleaning floors, walls and vinyl.

GREASE KLEN – Degreasing concentrate suitable for ferrous and non-ferrous metals. Mix Grease Klen with diesolene or kerosene, 1 part Grease Klen to 5-parts solvent depending on contamination.

GREEN DEVIL – Specialty acidic detergent for removing iron ore dust deposits, remove bore water stains and brake carbon and brighten aluminium.

HAND KLEN S – An antiseptic hand cream containing lanolin and glycerine for maximum protection of skin. Ideal for garages and workshops. Contains pumice for extra dirt removal.

HD CLEANER – Heavy duty cleaner for removing heavy grease, diesel fumes and road grime from truck engines and bodies.

RUST RINSE – Concentrated heavy duty rust converter to remove rust stains from fibreglass and aluminium boats.

SCALE KLEN – Acidic detergent for removal of light rust formation from steel surfaces, will leave light phosphate coating to assist paint adhesion.

SIROCCO – Abrasive, waterless hand soap for extra heavy duty applications.

SOLV KLEN – Safety solvent for fast and safe cleaning of electrical equipment, pre-cleaning of new bearings prior to installation plus many cleaning jobs where water is undesirable.

STEEL KLEN – Inhibited liquid acid cleanser. For rust removal from metal. Suitable for removal of concrete from mixer barrels.

STRATA – Quick break degreasing detergent for the automotive and general industry.

TYRE REJUVENATOR – Water based non-toxic compound for rejuvenating old and dusty tyres to give a “wet look” finish.

STONECARE SLATE, TERRACOTTA & CONCRETE

SLATE SEAL GLOSS – Solvent based acrylic resin for application on slate. Highlights natural colour and texture and provide protection against wear and staining.

SLATE SEAL GOLD SEAL – Extra heavy-duty, high solids slate sealer developed for tradesmen (reduced labour cost) and very porous slate (less sealer).

DIAMOND SEAL – Premium grade acrylic sealer for use in beautifying and protecting slate and stone.

PREMIUM MULTI SEAL – Water based sealer for use on slate and stone surfaces. Will not cause any colour darkening (wet look) of the stone or slate caused by spirit based sealers.

AMAZE – Acid based heavy-duty detergent for the removal of grout, cement smears and stains from slate and terracotta tiles prior to sealing.

SLATE KLEEN – Heavy duty alkaline detergent system for the cleaning of slate surfaces after laying and grouting, prior to sealing.

SLATE SHAMPOO – Light duty detergent concentrate for routine/weekly cleaning of slate floors. Will not effect the gloss on sealed floors.

SLASOL – Specialty solvent system specifically designed for dilution and/or removal of slate seal gloss or slate seal gold.

STONE & TERRACOTTA PRE SEAL – Water based pre-sealer for use on stone terracotta prior to grouting, and allows easy clean up of grout during the grouting process.

TERRA-NAT – Almost invisible penetrating sealer giving a natural look for high density terracotta.

TERRACOTTA CHOICE – Penetrating, long lasting, low maintenance sealer for use on terracotta and unglazed quarry tiles. Provides almost invisible barrier to staining from coffee, cooking oils, margarine, wine etc. Suitable for interior and exterior use.

TUSCAN SEAL – Super concentrated long lasting, low maintenance, almost invisible penetrating sealer for terracotta, sandstone, granite, marble, ceramics and vitrified semi porous surfaces. Prevents staining from coffee, cooking oils, margarine, wine etc. Suitable for interior and exterior.

UNIVERSAL TERRACOTTA SEALER – Water based sealer for terracotta tiles to protect against stains and to give a waxy appearance.

TERRACOTTA PRE KLEEN – Heavy-duty alkaline detergent for the cleaning of terracotta surfaces to remove building trades soils prior to sealing.

TERRACOTTA SHAMPOO – Light duty detergent concentrate for routing/weekly cleaning of terracotta floors. Compatible with all sealers.

CLAY & CONCRETE PAVER SEALER – Solvent based sealer for all types of concrete and clay bricks against stains from vegetable oils, grease etc. Also enhances the colours of bricks.

BRICK SEAL – Highlights the natural colours and texture of bricks and provides protection against water penetration, pollution staining and wearing.

MPA – Very hard multifunctional acrylic sealer for protecting surfaces of slate, stone, pavers, concrete, pebblecrete, stamped concrete and exposed aggregate.

STONESEAL – Water based sealer for walls and floors against penetration of stains, water, oils, greases etc.

MINING PRODUCTS

FIRE ASSAY FLUX – This unique product is used in gold rooms for detection of gold in ore samples. Klen International is Australia's premier manufacturer and supplier of quality, low gold flux. We manufacture over 85 different flux mixtures including our unique 'quick fire assay flux' formula. Fire Assay Flux manufactured by Klen International is exported and used in laboratories in countries across the world.

RE-AGENTS & RAW MATERIALS

Mineral acids and caustic soda

Acetic Acid

Acetone

Ammonia Aqueous (25%)

Borax (Anhydrous)

Caustic Soda Liquid and Pearl

D.I.B.K. & D.I.B.K. with Aliquat

Distilled Water

Ferric Chloride & Ferric Sulphate

Hydrogen Peroxide (50%)

Hydrochloric Acid (AR and Tech)

Litharge

Methylated Spirits (Industrial)

Mineral Turpentine

Nitric Acid (AR & TECH)

Oxalic Acid

Phosphoric Acid 85%

Soda Ash

Sodium Bisulphate

Sodium Hypochlorite (12.5%)

Sodium Metasilicate

Sodium Metabisulphite

Sodium Nitrate

Sulphamic Acid

Sulphuric Acid – various grades

White Spirits

DUST CONTROL & SOIL STABILISATION COMPOUNDS

CRUSTEX – Heavy duty protective crust forming soil stabilisation polymer. Environmentally safe and slowly biodegradable.

CLAYBREAK – Natural polymer to reduce the water resistance of soils with a high clay content.

SPECIALITY PRODUCTS

SONA CLEANSE – Ultrasonic detergent cleaner for use in ultrasonic and manual cleaning.

ANTI GRAFFITI PRODUCTS

ENVIROCURE 1951 – PVA Concrete curing compound giving maximum moisture retention possible.

ENVIROSHIELD 1954 – Water based sealer for walls and floors against penetration of stains, water, oils, greases etc.

ENVIROCURE CR309 – Concrete curing compound that complies with the high efficiency requirements of ASTM C309.

ENVIROSHIELD F – Water based, non-yellowing, sacrificial anti graffiti coating.

ENVIROSHIELD G – Cross linked, acrylic urethane non-sacrificial anti graffiti coating – warranted for 10 years.

ENVIROSHIELD P – Clay and concrete paving brick and concrete sealer.

ENVIROSHIELD 205 – Clear two part polymer protective coating to provide outstanding resistance to chemicals, abrasive impact, vibration and heavy vehicular traffic.

AGRICULTURAL & WETTING AGENTS

BOOMA – Concentrated solution for use as long lasting foam blob markers during boom spray operations (available in white, pink and blue).

CROSPUR TEM – Fully soluble trace element mix with high levels of zinc, iron, magnesium, manganese, boron, copper and molybdenum in a chelated form.

CROSPUR SP – Powdered fertiliser into which has been incorporated a wide range of trace elements.

SUPA SOKE – Wetting agent for lawns, gardens and pot plants.

SUPA SOKE GRANULAR – Granulated soil wetting agent available in domestic and commercial strengths for wetting water repellent soils.

SWIMMING POOL SUPPLIES

ALGAECIDE – Algaecide winteriser for use in swimming pools. (Liquid or Blocks).

CHLORINE 65 – 65% av chlorine calcium hypochlorite powdered sanitiser.

STABILISED DICHLOR – 100% soluble sodium dichloro isocyanurate powdered sanitiser.

D E FILTER POWDER – For use in filtration systems.

LIQUID CHLORINE – 12.5% (Sodium Hypochlorite).

DRY ACID – To reduce pH levels.

HYDROCHLORIC ACID – Liquid hydrochloric acid.

POOL BLOCKS – To control algae, slime and blackspot.

POOL BUFFER – pH buffer. Total alkalinity booster.

POOL STABILISER – Stabiliser for pool water.

SALT – Bulk 25kg bags swimming pool salt.

SODA ASH – Dry powder to raise pH.

SPA BROMINE TABLETS – Sanitising pools and spa.

SULPHURIC ACID 34% – Non fuming acid for pools which are operated by a Chemi-Gem.

TEST KITS – For salt and chlorine treated swimming pools and spas.

POOL MAGIC

*POOL SERVICE AND MAINTENANCE
SPECIALISTS*

ANCILLARY PRODUCTS

ANTI BAC – Sanitiser for hairdressing equipment.

DISTILLED WATER

HAIR SHAMPOOS & CONDITIONERS – A number of different varieties for all types of hair.

WATER TREATMENT CHEMICALS

WATER TREATMENT SERVICE

CORRHIB – Corrosion and scale inhibitors for use in open and closed recirculating water circuits:

- Condenser water
- Chilled water
- Heating water
- Vehicle cooling systems
- Industrial cooling systems

SCALEHIB – Scale inhibitors/dispersants for:

- Gold mine process water and elution circuits
- Cooling towers
- Process plant recirculating and once through systems.

BIOHIB – Microbiological control agents, used in:

- Cooling towers
- Cooling ponds
- Closed water systems
- Airwashers

BOILERTREAT – Corrosion and scale treatment products for:

- Fire tube boilers
- Water tube boilers

CHEMSOL – A range of specific process application products:

- Food grade defoamers
- Industrial process defoamers
- Dewatering aids
- Demulsifiers
- Mould release agents
- Water treatment flocculants and coagulants
- Acid cleaning chemicals
- Acid inhibitors
